Town twinning project

Sir, Madam,

We are contacting you because our village wishes to launch a twinning program with an Irish village.

We choice to contact your village through the library, because we think you have many contacts with people. Then we would like to know if such a project could be of some interest to your village.

Trough this twinning committee, we intend to promote human and cultural exchanges. We wish to welcome families or individuals from your village in our families, to share our heritage and our way of life.

Likewise, we would like to visit your country, learn about your culture and be able to practice our English speaking skills.

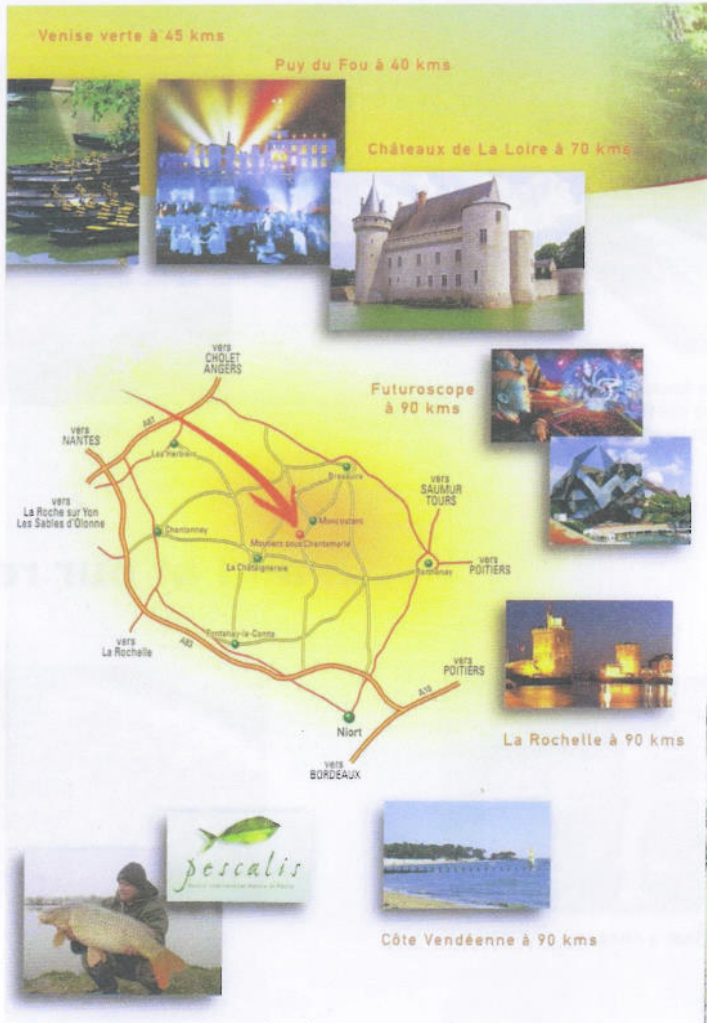

The way we see it, we would meet on an annual basis alternating trips to each other's country (once in France, the next time in Ireland and so on).

Please see attached an information leaflet about our village as well as the contact details of our Town Twinning Committee.

We hope our project is of interest to you and look forward to hearing from you soon.

Best regards,

The members of the Town Twinning Committee
